

Original Varnishes

Traditional Spar Varnish with UV Filters

PRODUCT DESCRIPTION

A traditional yacht varnish with UV resistance. Features include excellent flexibility, ease of application, good gloss retention, and non-blooming qualities. A high clarity finish especially suited to lighter color timbers.

PRODUCT INFORMATION

Color	Y90
Finish	Gloss
Specific Gravity	0.91
Volume Solids	50%
Typical Shelf Life	2 yrs
VOC (As Supplied)	374 g/lit
Unit Size	1 US Quart

DRYING/OVERCOATING INFORMATION

	Drying							
	41°F (5°C)		59°F (15°C)		77°F (25°C)		95°F (35°C)	
Touch Dry [ISO]	16 hrs		10 hrs		5 hrs		3 hrs	
	Overcoating							
	Substrate Temperature							
Overcoated By	41°F (5°C)		59°F (15°C)		77°F (25°C)		95°F (35°C)	
	Min	Max	Min	Max	Min	Max	Min	Max
Original	36 hrs	5 days	24 hrs	4 days	16 hrs	2 days	12 hrs	24 hrs

Note: Original must be sanded between coats.

APPLICATION AND USE

Preparation	<p>BARE WOOD Sand with 80 grade (grit) paper. Wipe with Brushing Liquid 333. Apply sealer coat of varnish reduced 10% with Brushing Liquid 333.</p> <p>BARE PLYWOOD Apply Inter-Prime Wood Sealer Clear 1026.</p> <p>PREVIOUSLY VARNISHED WOOD</p> <p>In Good Condition Sand surface with 120-150 grade (grit) paper and remove all dust.</p> <p>In Poor Condition If varnish is badly checked or peeling, remove finish to bare wood. Follow directions for varnishing bare wood.</p>
Method	<p>Pour the amount you expect to use in a separate container. Strain it through a paint strainer to ensure there is no contamination. Apply at least 5-6 coats on bare wood and a minimum of 3 coats on previously varnished surfaces until a satisfactory finish is obtained. Sand between coats using 220-320 grade (grit) paper. Remove sanding residue with a rag dampened with Brushing Liquid 333.</p>
Hints	<p>Mixing Stir gently. Do not shake.</p> <p>Thinner Brush - Brushing Liquid 333. Spray - Special Thinner 216.</p> <p>Cleaner Bare Wood - Brushing Liquid 333.</p> <p>Ventilation and Humidity Control It is best to paint on warm, dry mornings. Cold weather retards the drying and humidity can spoil the gloss.</p> <p>Brush Always use a clean brush that is kept specifically for varnishing. Clean brushes before use.</p> <p>Roller If rolling, use a thin nap roller and "tip-off" with a clean natural bristle brush.</p> <p>Airless Spray Pressure: 170 bar/2500 psi. Tip Size: 0.33-0.41 mm/13-16 thou.</p> <p>Conventional Spray Pressure Pot: Pressure: 3.44-4.47 bar/50-65 psi (gun pressure); 8-10 psi (pot pressure). Tip Size: 0.89-1.4 mm/35-50 thou. Siphon Cup: Pressure: 3.44-4.47 bar/50-65 psi - gun pressure. Tip Size: 1.5-1.8 mm/60-70 thou.</p> <p>Other Spray pressures listed are recommendations only. The applicator may use any settings which yield the best results for the individual spraying technique and current weather conditions. To enhance appearance of the bare wood and fill porous open grain, apply Interstain according to label directions and allow to dry overnight.</p>
Some Important Points	<p>Never leave bare wood exposed for long periods of time as it will absorb moisture. Avoid using Original straight from the can as this will cause it to age prematurely and may introduce contamination to the can. Failure to follow proper dry times carefully will cause improper drying, wrinkling and loss of adhesion. Avoid painting in direct sunlight. Do not use below 5°C/41°F. Product temperature should be minimum 10°C/50°F and maximum 35°C/95°F. Ambient temperature should be minimum 5°C/41°F and maximum 35°C/95°F. Substrate temperature should be minimum 5°C/41°F and maximum 35°C/95°F.</p>

Original Varnishes

Traditional Spar Varnish with UV Filters

Compatibility/Substrates	Suitable for use on all types of wood as long as correct surface preparation has been carried out. Original can be applied over any varnish as long as it is adhered well and has been cleaned and sanded. Do not apply two part varnishes over Original.
Number of Coats	3 minimum. Bare wood minimum 5-6 coats (thin first coat 10%).
Coverage	(Theoretical) - 600.1 ft ² /gal by brush, 510 (ft ² /Gal) by spray, 410 (ft ² /Gal) by spray.
Recommended DFT per coat	1.6 mils by brush
Recommended WFT per coat	3.1 mils dry by brush
Application Methods	Brush, Roller, Airless Spray, Conventional Spray - Pressure Pot or Siphon Cup

TRANSPORTATION, STORAGE AND SAFETY INFORMATION

Storage

GENERAL INFORMATION:

TRANSPORTATION:

Original should be kept in securely closed containers during transport and storage.

STORAGE:

Exposure to air and extremes of temperature should be avoided. For the full shelf life of Original to be realised ensure that between use the container is firmly closed and the temperature is between 5°C/41°F and 35°C/95°F. Keep out of direct sunlight.

Safety

DISPOSAL: Do not discard tins or pour paint into water courses, use the facilities provided. It is best to allow paints to harden before disposal.

Remainders of Original cannot be disposed of through the municipal waste route or dumped without permit. Disposal of remainders must be arranged for in consultation with the authorities.

GENERAL: Read the label safety section for Health and Safety Information, also available from our Technical Help Line.
